

# Assignment | Algorithms | CSE 103

University of Asia Pacific | Department of CSE | Spring 2018

ID: ..... Name: .....

---

- 1) Write a code to copy a string to another string in reversed order (“abc” → “cba”) and print the resultant string. Some portions of the code are done below for you, no need to write the whole code. Just fill the blank part only.

```
#include <stdio.h>
```

```
int main () {
```

```
    char str_1[101] = "Machine Learning", str_2[101];
```

```
    // Your Code
```

```
    printf("%s\n", str_2); // output should be: gninraeL enihcaM
```

```
    return 0;
```

```
}
```
