LECTURER, CSE, UAP

What is Question Bank?

A question bank is a planned library of test item designed to fulfill certain predetermined purpose.

Motivation

Question bank makes available statistically sound question of known technical worth and model question papers and thus facilitates selection of proper question of a well designed to question papers.

The library segment helps to find the reference books easily as we are used to read pdf version.

From the resource segment student get easy access for research papers. They need not to go anywhere.

A top-down view of a desk with various items: a small potted plant with green leaves in the top left, a spiral-bound notebook with a blank page in the top center, a pair of glasses in the top right, a pen in the middle right, a smartphone in the bottom right, a computer mouse in the bottom right, and a keyboard in the bottom center.

Purpose

- To improve the learning process
- It gives you the idea about the type of questions
- It is important to revise your entire syllabus quickly
- Give a general idea of the upcoming paper.

Features

Login Segment

- Create account
- Sign in to your account

Question segment

- Can Upload questions
- Can download questions

Library segment

- Books of different courses can be **downloaded**
- Books of different courses can be **uploaded**

Contd..

Resources

- Can upload research papers
- Can download research papers

Home page

- Information about UAP

Notification

- Notify users about update

Timeline

Conclusion:

We hope the application will help the student to save their time and provide an easier way for collecting questions, slides and books from an organized system. Some of them can contribute to the system by working as an admin and help other students too.

Thank You
