Assignment | Algorithms | CSE 103

University of Asia Pacific | Department of CSE | Spring 2018

ID: …………………………...……..   ID: …………………………...……..

1) Write a code to concatenate a string with another string and print the resultant string. Some portions of the code are done below for you, no need to write the whole code. Just fill the blank part only.

```
#include <stdio.h>

int main () {
    char str_1[101] = "Humpty Dumpty ", str_2[101] = "sat on a wall.", str_3[201];

    // Your Code
```

```
    printf("%s\n", str_3); // output should be: Humpty Dumpty sat on a wall.
    return 0;
}
```
