1. Students have to **submit** the following items **before attending the Project's Final Presentation** (According to Lab Schedule).
   a. Final project report in pdf and word format.
   b. Complex Engineering mapping.(submit Week 13)
   c. Soft copy of source files (code) and associated data in zip file.
   d. Project demonstration video

** *Name of the documents will be* **Your_Group_Number_FileName.**
For Example,
*If your group no is A1-**G-1**, then your PDF/doc/project name will be A1-**G1_Report/A1-G-1_CEP**.*

Reporting Format

Group_ID:
Project Name:
(If uploaded: version control system: project directory)
Project members: Name, Registration No.

1.	**Motivation** and **Problem definition** in details
2.	Objectives (+output)
3.	Benefits of the project: • The Engineer and society : Effect on Society
4.	Investigation (Related works) : literature review / feasibility study / Knowledge profile
5.	Project management (Time -Table) and finance (Module wise)
6.	Solution methodology: show different types of diagram (ER, DFD, UML: Class/Object/state/Activity/Use case/etc.) • Project developing resource (Model, pattern, framework, API, Dataset, etc.)
7.	Risk Analysis: Facing problems to develop your solution: Occurrence solution (Stack-overflow, Quora : post/ image)
8.	Final Project : sample image
9.	Learnings from this work
10.	Deployment: How can I run your source code in my device??
